

DR. HUESAN TRAN

a visionary leader

By Kimberley Simon

Dr. Tran's lifetime work is to help humanity attain Unity with God and to integrate spirituality in all aspects of life, especially in business, finance and economics. She is here to bring new change to transform the chaos, crisis and collapse into the new world – a New Paradise on Earth.

When Dr. Tran became enlightened she didn't yet have clarity about the "how." Her challenge has been how to do what she is here to do. It took her more than ten years to understand that fully. As she put it, she had to move through "... randomness and keep connecting the dots to see the big picture of the divine work." She also had to move through fears and blocks and gain faith in the process.

Her enlightenment led her to give up her very successful managing consulting career in 1998 to step into the unknown and follow her higher calling to prepare herself to serve in a time of chaos, crisis and collapse. Her decision was not viewed as rational or logical by many in her network at the time but was a call that Dr. Tran knew she couldn't ignore. She knew she just had to serve God. In fact, becoming enlightened was not the end of her journey... it was a new beginning.

From knowing who she is to "being" who she is took Dr. Tran over 12 years of self-cultivation, moving from self-discovery to self-mastery. She shares, "When you attain self-mastery, you can break free and become unstoppable." And she is unstoppable!

In 1998, in the process of working on her doctorate thesis on energy healing, she discovered the

Dr. Huesan B. Tran is a visionary leader of the New Paradise and Paradigm Shifter. She was enlightened in 1997, and, in that moment, recognized who she is, why she's here, what she's here to do, and what her mission in life really is.

Meridian of God, which shifted the paradigm of everything for her. That was Dr. Tran's awakening moment – she was, through direct experience, given the divine truth that was lost in human consciousness for countless millennia and centuries. With that, she was entrusted the divine mission and responsibility of sharing the discovery of the Meridian of God with humanity. The Meridian of God is the divine message she waited nearly fourteen years to share with the world. She wasn't able to share the message until divine timing made it possible and opened the door for her to do so. She knew to change her thesis to focus on the Meridian of God and to integrate that with Eastern medical philosophy, but that was limited to the field of complementary medicine, which she knew wasn't complete.

Back in 2003, Dr. Tran shared the vision of New Paradise on Earth and people shied away from her. Now, people are enthusiastically engaged and participating. Humanity is ready! The old way is "stuck" and attempts to remain in the old way no longer

work. Sitting still is not the answer. We are moving forward in a new phase of human evolution. It is time for a spiritual renaissance in all aspect of life.

The Meridian of God shifts the paradigm of how man and God are One, as well as how the spiritual and physical realms are one. This awakening is the path to transform the existing paradigms of science, religion, human consciousness, etc. and unifies science, religion, humanity, and everything. It challenges the old belief system that no longer serves us.

This allows the old spiritual paradigm to transform to a new spiritual paradigm and is critical for our evolution. We are living in, and with, the Meridian of God every moment without realizing it, and have been doing so for perhaps millions of years. Instead of studying the Holy Scriptures and bible, we need to realize our divinity – the divinity of who we really are. We are all part of God, the extension of God's energy, through the Meridian of God – in what we think, feel, touch, hear, see, speak, act, and interact with. We are the living Bible. So, the best way to experience and express love is to live it, not just study or talk about it on an intellectual or mind level alone.

Dr. Tran is divinely inspired by God in her new conscious “knowing” that modern society needs a new and easy way to integrate spirituality into all aspects of life. It's the route to self-worth, clarity and direction in order to thrive through the many changes in the new world. **The Meridian of God is a simple truth that demystifies how humans and God are one.** It shifts human consciousness to a new paradigm and awakens human responsibility, higher purpose and divine mission.

The Meridian of God is the lost ancient secret rediscovered – to transcend time and space and unite both the spiritual and physical paths as one. It is the key to attain Divine Union of God-man Unity to solve all problems, overcome deadlocks and transform to a new phase of human evolution – to co-create a New Paradise on Earth!

The Meridian of God is the nervous system... the nervous system is God in you. It is how the different energies of both spiritual and physical realms transmit, receive and interface. It is how humans communicate and unite with God. There is no time or

space gap between human and God; the only gap is the energetic gap between man and God, which is a consciousness gap. The discovery and awakening of the Meridian of God closes the consciousness gap and unifies everything for instant enlightenment and collective ascension.

The mission entrusted to Dr. Tran is to assist in the collective purpose of humanity to co-create New Paradise on Earth; Dr. Tran is the messenger to remind humanity of what we already know but have forgotten or neglected. She is here to awaken humanity to our origin and destiny. Our origin is God and our destiny is attaining Unity with God so we can unfold the God-like divine potentials to co-create New Paradise on Earth. The divine purpose and mission of humans is to care for all living creatures and our planet Earth, yet the commercialization and industrialization is moving humanity away from its true nature and depleting Earth's resources. We are so misaligned with our divine essence, purpose and mission, which resulted in chaos and disorder in the world. The reality we live in is created from our collective consciousness.

Dr. Tran reminds us that no one can do this alone. Doing the great work involves collective awakening and unification. Many world changing visionaries, pioneers and leaders are contributing to the co-creation of a better future for mankind. Dr. Tran was called to unite the leaders to co-create a New Paradise on Earth, to unify the efforts to bring the greatest force of change to transform human consciousness and destiny. The divine work is beyond conscious awakening.

It means walking both the spiritual and physical path **as one** in real life, solving problems in the trenches and creating new economy, new industry, new career, new jobs, etc. It means integrating spirituality into business, finance, economics, and all aspects of life to live your life purpose and fulfill your divine mission.

To fulfill her mission and assist humanity, Dr. Tran is launching the New Financial Paradise platform (www.newfinancialparadise.com) for the new generation of visionaries, pioneers and leaders to come together to collaborate and contribute new thought, inventions and solutions for the betterment of humanity. In modern society, it is impos-

sible to have New Paradise on Earth unless we can heal, rebuild and co-create a New Financial Paradise. New Financial Paradise is just the building block to co-create a New Paradise on Earth, the beginning of turning Divine Vision into reality.

FEATURE STORY

Dr. Tran is working on two forthcoming books:

The Meridian Of God™ is the lost ancient secret rediscovered to unite both the spiritual and physical path as one. This book offers modern society a new and easy way to integrate spirituality in all aspects of life to find self-worth, clarity and direction to thrive through changes in the new world. Here, Dr. Tran helps us to discover a simple truth that demystifies how humans and God are One. It shifts consciousness to a new paradigm and awakens human responsibility, higher purpose, and divine mission.

FINANCIAL HEALING, Dr. Tran introduces **"A New Financial Paradigm to transform your destiny!"** As an insider of the financial and wealth management industry, she reveals what's wrong with the financial industry structure, conventional practice, mindset, and common myths. She integrates energy healing concepts to identify the root of problems to cure them. She shares a new perspective, insights, and practical solutions and introduces a new model, standard and approach to realign, reform and reinvent the industry to transform your financial destiny and the future of humanity.

Dr. Tran created the Financial Healing Series educational program (www.financialhealingseries.com) to identify the myths and misconception that caused millions of people to lose money over and over again, depleting their assets/lifestyles and leaving them unable to retire. In this program, she reveals wealth secrets that the schools and gurus don't teach, the media rarely covers, and the banks and Wall Street don't want you to know.

She also created the New Financial Paradigm seminar (www.newfinancialparadigm.com) to provide solutions and to teach us why the old financial paradigm traps human evolution. She invented a New Wealth Model that integrates spirituality into practice to create wealth with a higher purpose and mission.

These are new schools of thoughts and frameworks that offer both conceptual understanding and practical solutions for people with different consciousness to be financially enlightened.

Dr. Tran is establishing the New Paradise Founda-

tion, a non-profit organization fiscally sponsored by United Charitable Programs, to cultivate spiritual, economic and humanitarian development in concurrence to co-create New Paradise on Earth. It is a divine wish to turn the Divine Vision into reality for the divine work to perpetuate. She is open to different kinds of resources, funding, volunteers, and leaders to collaborate on various humanitarian projects that relate to integrating energy healing in commercial farms, ranches, forestry, water, soil, etc. for planetary healing. If you feel called to contribute to New Paradise Foundation, contact Dr. Tran (www.huesantran.com/contact) to connect and contribute.

There is no excuse to remain stuck in the old paradigm trap! You are the changing force of the new paradigm and contribute to New Paradise on earth.

Bellesprit Magazine is honored to acknowledge Dr. Huesan Tran within the ranks of 'Beautiful Spirit' for her leadership in guiding us toward The New Paradise on Earth.
